

MINISTRY of HEALTH
REPUBLIC OF BOTSWANA

Republic of Botswana
Botswana Integrated Disease Surveillance & Response

20 [Week ending 17/05/14]

- The total number of Diarrhoea cases is below the national Alert threshold; therefore districts are urged to be vigilant in their surveillance activities to detect any unusual increases.
- 9 confirmed malaria cases have been reported for week 20 with no deaths. Districts are therefore advised to report malaria cases as immediately Notifiable via case based reporting forms and investigate each and every confirmed case.

1.0 Reporting of the MH 2007 Weekly Report of Notifiable Diseases (Week 20)

Figure 1 and 2: Consistency in reporting and Quality of reporting of MH2007

Completeness and Timeliness of reporting at DHMT:

Proportion of facilities submitting surveillance reports on time to the district level for week 20: **83.6%**

Number of districts with a completeness of 100% for week 20: **07**

The DHMT COORDINATOR should make sure that SOMEONE is responsible for the report for ANY given week.

Timeliness at National Level: Out of the 28 districts, 23 districts reported on time. This left the timeliness of district reporting at 82.1%. We urge districts to be vigilant about sending weekly reports on time to the central level by the quickest means possible either by fax, email or phone.

2.0 National < 5 Diarrhoea Threshold-2014

Diarrhoea surveillance week 20

<Diarrhoea cases reported for week 20: **235**

<Diarrhoea deaths reported for week 20: **03 (Jwaneng 2, Boteti 1)**
